RICHMOND GRAIN MARKET.

## New York Stock Market

New York, September 15.—The principal factor at work in the stock market to-day was the reversal of speculative operations for the advance attempted earlier in the week, and which has not met with encouraging response by attarteting any substantial demand from outside sources. There grew up some uneasiness over the condition of the steel industry, which had the effect of giving positive force to the reaction. Price concessions were yielded grudgingly, and there were signs of resistance and individual points of strength in the market, but the whole market gave way and closed decidedly weak.

Steel trade advices have pointed to a subsidence of the revived demand for structural forms, and some other finished product, and to an obvious determination on the part of buyers to hold off for possible lower prices. Sellers at the same time were inclined to compete for business by offering down prices. An estimate published yesterday of pig from stocks of 1,980,000 tons was distiked. It is considered unlikely that the railroads will depart soon from the policy of abstention from purchases of supplies in face of the undetermined question of rate increases and the rising tide of operating expenses. No considerable revival of activity in the steel trade is looked for until the railroads come into the market as free buyers. Force was given to this view by the published expressions of President McCrea, of the Pennsylvania, on his return from abroad.

"Industry has been gradually contracting, and I do not expect to see it expand until several things are settled.

With the elections and the Supreme Court decisions in the trust cases to wait for the speculative prospect ofers so long a period of remaining uncertainty that attempts to shape prices to the future position are feared.

Further consideration of the apparent detdlock caused by the rejection of the railroad validitation for cotton

refers so long a period of remaining uncertainty that attempts to shape prices to the future position are fear.

Purther consideration of the apprehend of the reference of the control of the reference of the future position are fear.

### COTTON MARKETS.

New York, September 15.—There was a sharp advance in the cotton market today, and while part of the improvement was lost in the later trading, with the closing tone barely steady, last prices showed a net gain of 100 Hz plants, and furing the earlier tarding was quiet and firregular. Local people appeared to be welling on the same oid theory of a gradual deciment of the same point of the market gradually firmed up until just before middsy, shorts became uneasy and started a covering movement, which found a very fresponsive market. Before the advance was thecked October contracts sold at 12.9 and December at 18.11, or 19625 points net highlar. At this level, realizing became a factor, and the market later reacted from the best, and the market later reacted from the best,

New Orleans, La., September iš.—Cotton—Spot cotton steady and unchanged; midding, 15%c. Sales on the spot 250 bales and 100 to arrive. Cotton futures opened steady at a decline of 19% points. After the call the market was steadler, shorts showing a disposition to cover on the very heavy rains in the last two days in South Texas. Private roports said that over 14 inches of rain had fallen in the vicinity of Corpus Christy since Tuesday. Buying orders appeared to come principally from spot houses and spinners, and it was said that in many cases the purchases were not in the nature of hedges, but were made with the hiele of receiving cotton on contract, the price of October offering special inducements in this direction. It was claimed that they was stimulated by the bills of lading dispute, and that many spinners and spet were buying against requirements after October 31, the date which foreign bankers have set as ending the present method of issuing bills of ladings. Cotton futures closed steady. Closing bill. September, 13.27; October, 12.86; December, 12.27; anury, 12.87; March, 13.10; May, 13.20.

### MISCELLANEOUS MARKETS.

New York, September 15.—An improved demand for dry goods from the States east of the Mississippi is reported in the primary markets. Cotton goods hold fairly steady, but buying is still restricted. Prints and dress ginghams are selling steadily for quick shipment. Raw jute has advanced materially, and burlaps have been advanced ye. a yard. Carpets and rugs are in steady demand. DRY GOODS MARKET.

# 922 E. MAIN ST., RICHMOND, VA.

CAPITAL ONE MILLION DOLLARS

PROTECT YOUR HEIRS.

Widows and orphans have ever been the prey of swindlers. Scarce a town in the United States but has its tragic story of some family suddenly bereft of husband or father reduced to poverty through investment in worthless stocks or bonds. When this company is named as Executor, Trustee or Guardian, a testator can be sure that his widow or children will receive their incomes regularly as long as they live—and after them their heirs. Interviews or correspondence which are confidential are invited.

JAMES N. BOYD, V.-P. L. D. AYLETT, See'y.
